I AM LOOKING FOR...

I am looking for an internship in 2027. I am flexible with times and willing to move abroad. I am hoping for roles such as product-, interaction-, UI, UX-, or AIX designer.

PROFESSIONAL PROFILE

Bachelor of Science (BSc) in Digital Design & Interactive Technologies from the IT-University of Copenhagen. I work across the entire design process from research and facilitation to visual design and implementation. I put people first. I thrive on user-centered research and design. Through my bachelor thesis I designed a set of AI interaction policies for a medical helpline, through co-design with real users. I have experience being a teacher, an artist, an assistant consultant building webpages. Now I am working on side projects and looking for an internship to get more relevant industry experience.

PERSONAL PROFILE

I'm a true project-nerd' and always working on something. Often it's a personal creative project, drawing or digital art, or a sports project. Last year I tried to relearn swimming butterfly, last spring it was running my second marathon, and now I'm focused on becoming a better boulderer. Generally I am a very calm, playful and empathetic person. I enjoy learning new things and am always trying to stay silly and curious.

TOOLS

Figma, Arduino, CMS systems, procreate, Adobe XD, Adobe InDesign

LANGUAGES

Danish (Native)

English (Fluent)

German (Basics)

EDUCATION

BSc Digital Design & Interactive Technologies, IT-University of Copenhagen (ITU)

August 2023 - June 2026

Selected courses:

Interaction Design, Programming, Physical Computing, UI Design, User surveys and quantitative methods, Qualitative Research Methods, Co-design, Digital Material and Interactive Artifacts, Designing Sustainable Futures, Concept Development with Industry.

HTX (Mathematics A & Programming B), NEXT Vestskovens Gymnasium (High School)

August 2019 - June 2022

In gymnasium (High School), I won **1st place in NEXT Start-up (2020)** and **3rd place in Company Programme - regional championships of innovation (2021)**, arranged by Fonden for Entreprenørskab, with a project aimed at reducing cigarette butts in the streets.

EXPERIENCE

Teaching Assistant, IT-University of Copenhagen (ITU)

January 2025 - June 2026

Physical Computing – Theory and Practice (spring 2025 & spring 2026)
Quantitative Methods and Studies (fall 2025).

As a teaching assistant at ITU, I guided and supported students through hands-on exercises. I helped with troubleshooting, groupwork, and presentations. I was working closely with the lecturer, occasionally running lectures myself, and acted as a bridge between students and the teaching team.

Assistant Consultant, Kunde & Co

May 2025 - June 2026

At Kunde & Co, I work across a range of tasks including visual design for consultant presentations, late-stage web updates and content publishing based on client feedback, and direct client communication through Smartsheets. I work with tools like Figma, AdobeXD, Hubspot, Veeva, and various CMS platforms.

Freelance Artist, Kræss

January 2024 - now

I create and sell poster designs through Kræss, a curated art store, working across physical drawing, Procreate, Figma, and Adobe InDesign. The curation process, where pieces are selected based on aesthetic fit, has sharpened my eye for visual communication and given me experience producing finished, print-ready design work.

Student Ambassador, IT-University of Copenhagen

February 2025 - June 2025

As a student ambassador, I introduced potential students to my study program by bringing them along as a student for a day.

Substitute Teacher, Pilehaveskolen

August 2022 - June 2023

As a substitute teacher in a primary school, I was responsible for stepping in when a teacher was absent. I had a fixed role to support two children with special needs, whom I guided both academically and socially.

VOLUNTEER WORK

Event Organizer,
DAK (Design Aktivitets Komité)

January 2024 - October 2024

Student organization at ITU where I planned and facilitated workshops for design students, including one on Critical Representations of AI.

Barista, Café Analog

September 2023 - June 2025

Student café organization at ITU where I volunteered as a barista.
